

WINE LIST

provenance

noun

the place of origin or earliest known history
of something.

Provenance is at the heart of all things we do here at Moor Hall, and our wine philosophy is no different.

Whilst compiling and evolving our list, our focus is to work with farmers, growers, artisans and winemakers who can take the simplest & most humble expression of a grape variety and nurture it into greatness.

The foundations of all great wine come down to the people, soil, quality of produce and patience. Much like the independent growers & farmers we work with within our Kitchen, our relationship with the winemakers is no different.

Our focus is to work with and see the evolution of the next generation of the wine industry, the pioneers and trailblazers of organic & biodynamic wine production and the icons around the world which have sculpted the industry to what it is today.

We believe that a combination of sustainable practices, suitable climates, and unrivalled expertise from winemakers both young and old help create stories within a bottle or glass and take you as a guest on a journey of exploration through vineyards around the world.

We are not here to tell you what to drink, or how to drink it, but here to advise should you need any guidance or have any questions.

Above all, we want it to be fun, interactive, enjoyable and accessible for everyone.

WINES BY THE GLASS

At Moor Hall we understand that the nuances of how a glass of wine can elevate an exceptional dining experience, and our glass selection is a testament to that philosophy.

Whilst we offer our Wine Pairings, we realise these aren't for everybody, so we have created an ever evolving and rotating selection of fine wines by the glass.

Each glass tells a story of a variety of 'terroir', skilled winemakers, and a commitment to excellence. We hope that you agree that our offering showcases the depth of winemaking around the globe.
